- 3 x BD 600:

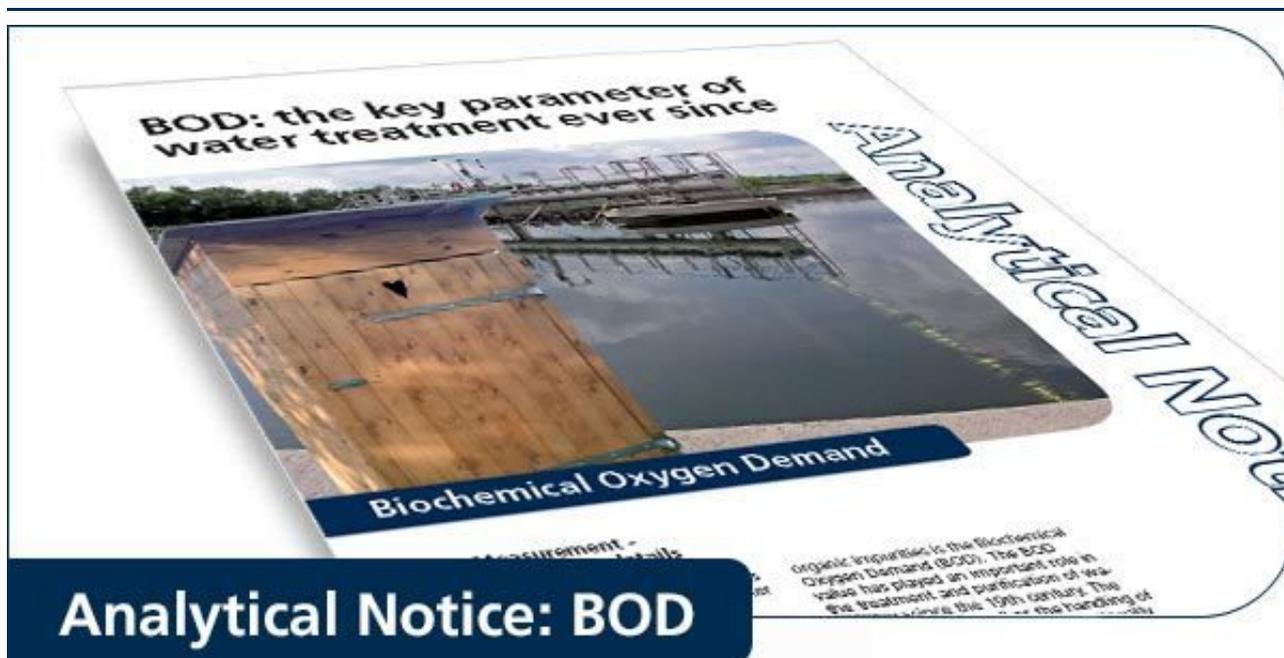

€ 4,973.00 rather than € 5,323.00 (= **€ 350 SAVING**)

*model with glass door

The **BD 600** is a state-of-the-art analytical instrument for the measurement of Biochemical Oxygen Demand (BOD). The bright backlit display ensures results are easy-to-read with graphical representation of measured values. A remote control is included as standard to enable users to control the device even when the Thermo Cabinet glass door is closed. This ensures the temperature inside the cabinet remains stable and samples are not subjected to temperature fluctuations.

Please send an email to sales@tintometer.de to order one of these bundles using the code **Promo BD 600**.

NOTE: for customers located in the Americas, please email sales@tintometer.us for your offer.

A hot topic for decades

Dear partners,

Due to rising living standards and a higher quality of life measuring Biochemical-Oxygen-Demand (BOD) is now increasingly important. Accordingly, in the latest edition of our Analytical Notice, we are pleased to present you with the most relevant information to ensure you can achieve the a correct result. Please click [here](#) to find out more about the measurement procedure.

Best regards from Dortmund
